TRENTON CURLING CLUB LIGHTS-UP WITH A \$20,200 ONTARIO150 COMMUNITY CAPITAL PROGRAM GRANT

Trenton - The Trenton Curling Club is excited to share the news that it's received a \$20,200 Ontario150 Community Capital Program grant. The grant will be used to install new energy efficient LED Lighting. The new lighting system will significantly reduce hydro costs and allow the Club to move forward in other energy savings initiatives. This Ontario150 grant program is administered by the Ontario Trillium Foundation and requires organizations to match a percentage of the grant awarded.

"This grant recognizes both the history of the Trenton Curling Club and looks ahead to its successful future. This funding will allow the club to reduce their costs in a very progressive way with energy saving initiatives going forward." - Lou Rinaldi MPP for Northumberland-Quinte West

Trenton Curling Club is a not-for-profit sports club which supports physical activities through regular curling leagues that operate six to seven days a week. Its Learn to Curl program introduces new members to the game with instruction during an eight week program. The Club also works with all of the local schools, offering curling instruction by volunteers, and it subsidizes its Little Rocks/Junior program to help ensure that future curlers have a chance to get involved and develop in the sport.

"This is terrific news for the Trenton Curling Club and a positive beginning for 2017! The not-for-profit club depends on, and receives, great support from its members volunteering in numerous capacities," said Catherine Holmes, President of the Trenton Curling Club.

The club is open to charity organizations for their fundraising events. For more information about this and all of the great programs available to all ages, please visit: www.trentoncurlingclub.ca.

Administered by the Ontario Trillium Foundation, an agency of the Government of Ontario, Ontario150 Community Capital Program grants will help nonprofit organizations, municipalities and Indigenous communities renovate, repair and retrofit existing community and cultural infrastructure. The one-time, Ontario150 grant has been designed to help honour the province's past, showcase the present and inspire future generations.
